MORATORIUM ORDINANCE REGARDING MEDICAL MARIJUANA CULTIVATION, PRODUCTION, TESTING AND RETAIL SALES FACILITIES

WHEREAS, the cultivation, production, testing and retail sales of medical marijuana is an authorized, regulated program of the State of Maine; and

WHEREAS, there has been an increasing number of requests regarding the establishment or expansion of commercial facilities for the cultivation, production, testing and retail sales of medical marijuana; and

WHEREAS, State law specifically authorizes municipalities to regulate registered caregivers and commercial facilities for the cultivation, production, testing and retail sales of medical marijuana as long as such regulations do not prohibit or limit the number of registered caregivers in the municipality under Maine Medical Use of Marijuana Act, 22 M.R.S. § 2429-D; and

WHEREAS, operations related to the cultivation, production, testing and retail sales of medical marijuana raise a number of concerns related to public safety and welfare, including, but not limited to, potential adverse effects on neighborhoods, security of the facilities, and odors that may create a public nuisance or hazard; and

WHEREAS, the Town's existing ordinances do not provide an adequate mechanism to regulate and control medical marijuana cultivation, production, testing and retail sales facilities and are inadequate to prevent the potential for serious public harm from the future establishment of medical marijuana cultivation and production facilities; and

WHEREAS, the Town needs a reasonable amount of time to study the land use implications of medical marijuana cultivation, production, testing and retail sales facilities and to develop reasonable regulations governing their location and operation, and

WHEREAS, during the period of this Moratorium, the Town will work on developing appropriate land use regulations concerning medical marijuana cultivation, production, testing and retail sales facilities.
