  - Hospital accompaniment when injury is incurred as a result of domestic abuse
  - Support groups offered online and in-person
  - A dedicated staff in Child Protective Services at the Department of Health and Human Services to address the needs of families affected by domestic abuse who have children
  - Emergency sheltering
  - Long-term transitional housing with case management and the opportunity to work toward financial stability with training from New Ventures Maine
  - Trainings and presentations for healthcare professionals, mental health providers, schools, businesses and civic organizations to raise awareness and to help prevent abuse
- \* We do charge for mental health trainings only

We partner with schools, healthcare practitioners, law enforcement and other community agencies to offer a wide network of support and advocacy for our clients. Your donation allows us to respond to those in need. Thank you!
